**ALABAX Porcelain Lighting Fixtures** will not tarnish, rust, stain or change their color. The beautiful glazes will preserve their beauty forever. They are fired at a temperature of approximately 2300 degrees Fahrenheit. The glazes become an integral part of the fixture—therefore not subject to peeling or change in color.

Illuminating Engineers have a special interest in the high reflecting factors in ALABAX—as disclosed by tests made at the Electrical Testing Laboratories in New York. Reflecting surfaces range from 68% for glazed surfaces, to 80% for unglazed surfaces. Light output is 85% or better—depending of course on the glass or Luminaire used.

The name ALABAX is a trademark—registered in the United States Patent Office. The prefix “AL” preceding the catalog number, is an abbreviation of the trademark “ALABAX.”

All ALABAX fixtures, excepting as otherwise noted, are supplied in several beautiful glazes at small additional cost. These colors—in addition to the White—are Jet Black—Ivory—Light Green—Orchid and Sea Green.

Many ALABAX fixtures are supplied with glass—as a part of the catalog number. When so stated the glass is included in the catalog number price.

ALABAX Porcelain Fixtures do not include the lamps. Lamps are included simply for illustration.

# ALABAX PORCELAIN LIGHTING FIXTURES

*Continued from page 2*

The Main Light may be any size up to and including 75 watt.

In the Kitchen and Breakfast Nook the outlets in the fixture are useful and economical—for the purpose of using appliances such as toasters, coffee percolators, etc.—without having to walk from the breakfast table to another part of the room to “plug-in.” The Night Light affords some protection against marauders—reduces the hazard of stumbling in a darkened room when passing through to the garage or other part of the house.

In the Bathroom and Nursery—it is desirable to have a night light burning at minimum expense. It is easy for Mother to tie a string to the chain so that the small child can pull the string and convert the night light into full light if needed.

In the Hospital—a fixture with a night light and convenience outlet is most useful in a sickroom. For the Doctor and Nurse, the two outlets afford every convenience—no extra wiring is necessary. The reflector on the night light and on the main light may be swiveled at will—to direct the light as desired.

The white enameled reflector may be pointed upward to produce indirect light.

## In the Home.

ALABAX Porcelain Lighting Fixtures should be used throughout the house. They are Artistic—Serviceable—Reasonable in Cost. Many of these Residential fixtures contain convenience outlets—affording the housewife an opportunity to “plug-in”—any of the electrical appliances used about the home—all without increasing the cost of wiring.

## Well Designed.

ALABAX Fixtures are well designed as well as practical. Designs have been obtained from leading artists and designers such as Mr. William Lescaze, prominent, modern architect; Mr. Guy Cowan, designer and producer of Cowan's Art Pottery, and others.

# ALABAX PORCELAIN LIGHTING FIXTURES

## Easy to Clean.

ALABAX fixtures may be cleansed easily (as easily as a china plate) and when cleansed—they look clean.

The beautiful glazes will preserve their finish forever.

In semi-tropical and tropical climates, ALABAX fixtures have an especial appeal. They cannot rust or tarnish. If the winter home in the South is closed for months—the fixtures will be found to be glistening in their original glazes when the house is reopened. If the camp in the North is closed all winter—these fixtures cannot be harmed. They are not affected by cold or dampness.

In districts where soft coal is burned—the expense of refinishing a metal fixture is substantial—the soft coal smokes and gases will not tarnish ALABAX Porcelain Lighting Fixtures.

## Convenience Outlets.

Reference is made throughout this catalog to certain fixtures equipped with convenience outlets. These convenience outlets afford an opportunity for providing additional facilities of "plugging-in" without extra cost of wiring. They are placed on the fixture in such manner that the appearance is not affected—yet they are easily used.

Electric razors need a convenient place to "plug-in"—in the bathroom. The convenience outlets in many ALABAX Porcelain fixtures provide this convenience without additional wiring cost.

# ALABAX PORCELAIN LIGHTING FIXTURES

## Satisfied Users.

Much of the modern housing provided by Housing Division of Public Works Administration is completely equipped with thousands of ALABAX Porcelain Lighting Fixtures.

Syracuse Memorial Hospital in Syracuse is completely equipped with ALABAX Porcelain Lighting Fixtures—in all locations excepting in the main lobby—where large ornamental bronze fixtures are used.

American Federation of Full Fashioned Hosiery in Philadelphia, selected ALABAX Porcelain Fixtures for their new plant—they installed 585.

The New York Central Office Building in New York City have 1200 installed.

The Hotel Astor in New York City recently installed 745 ALABAX Porcelain Lighting Fixtures.

Thousands of the Covered Wagon Company Trailers are equipped with ALABAX Porcelain Lighting Fixtures.

The United States Navy is using almost 400 of the 6" fitters, AL-2250, at Pearl Harbor.

Four thousand ALABAX Lighting Fixtures will be installed in Cedar Central Project in Cleveland, Ohio.

The Federal Housing Project at Indianapolis, Indiana, will contain 4,244 ALABAX Lighting fixtures.

The Hillside Apartments in New York, and Boulevard Garden Apartments in New York, have ALABAX Porcelain Fixtures in all bathrooms.

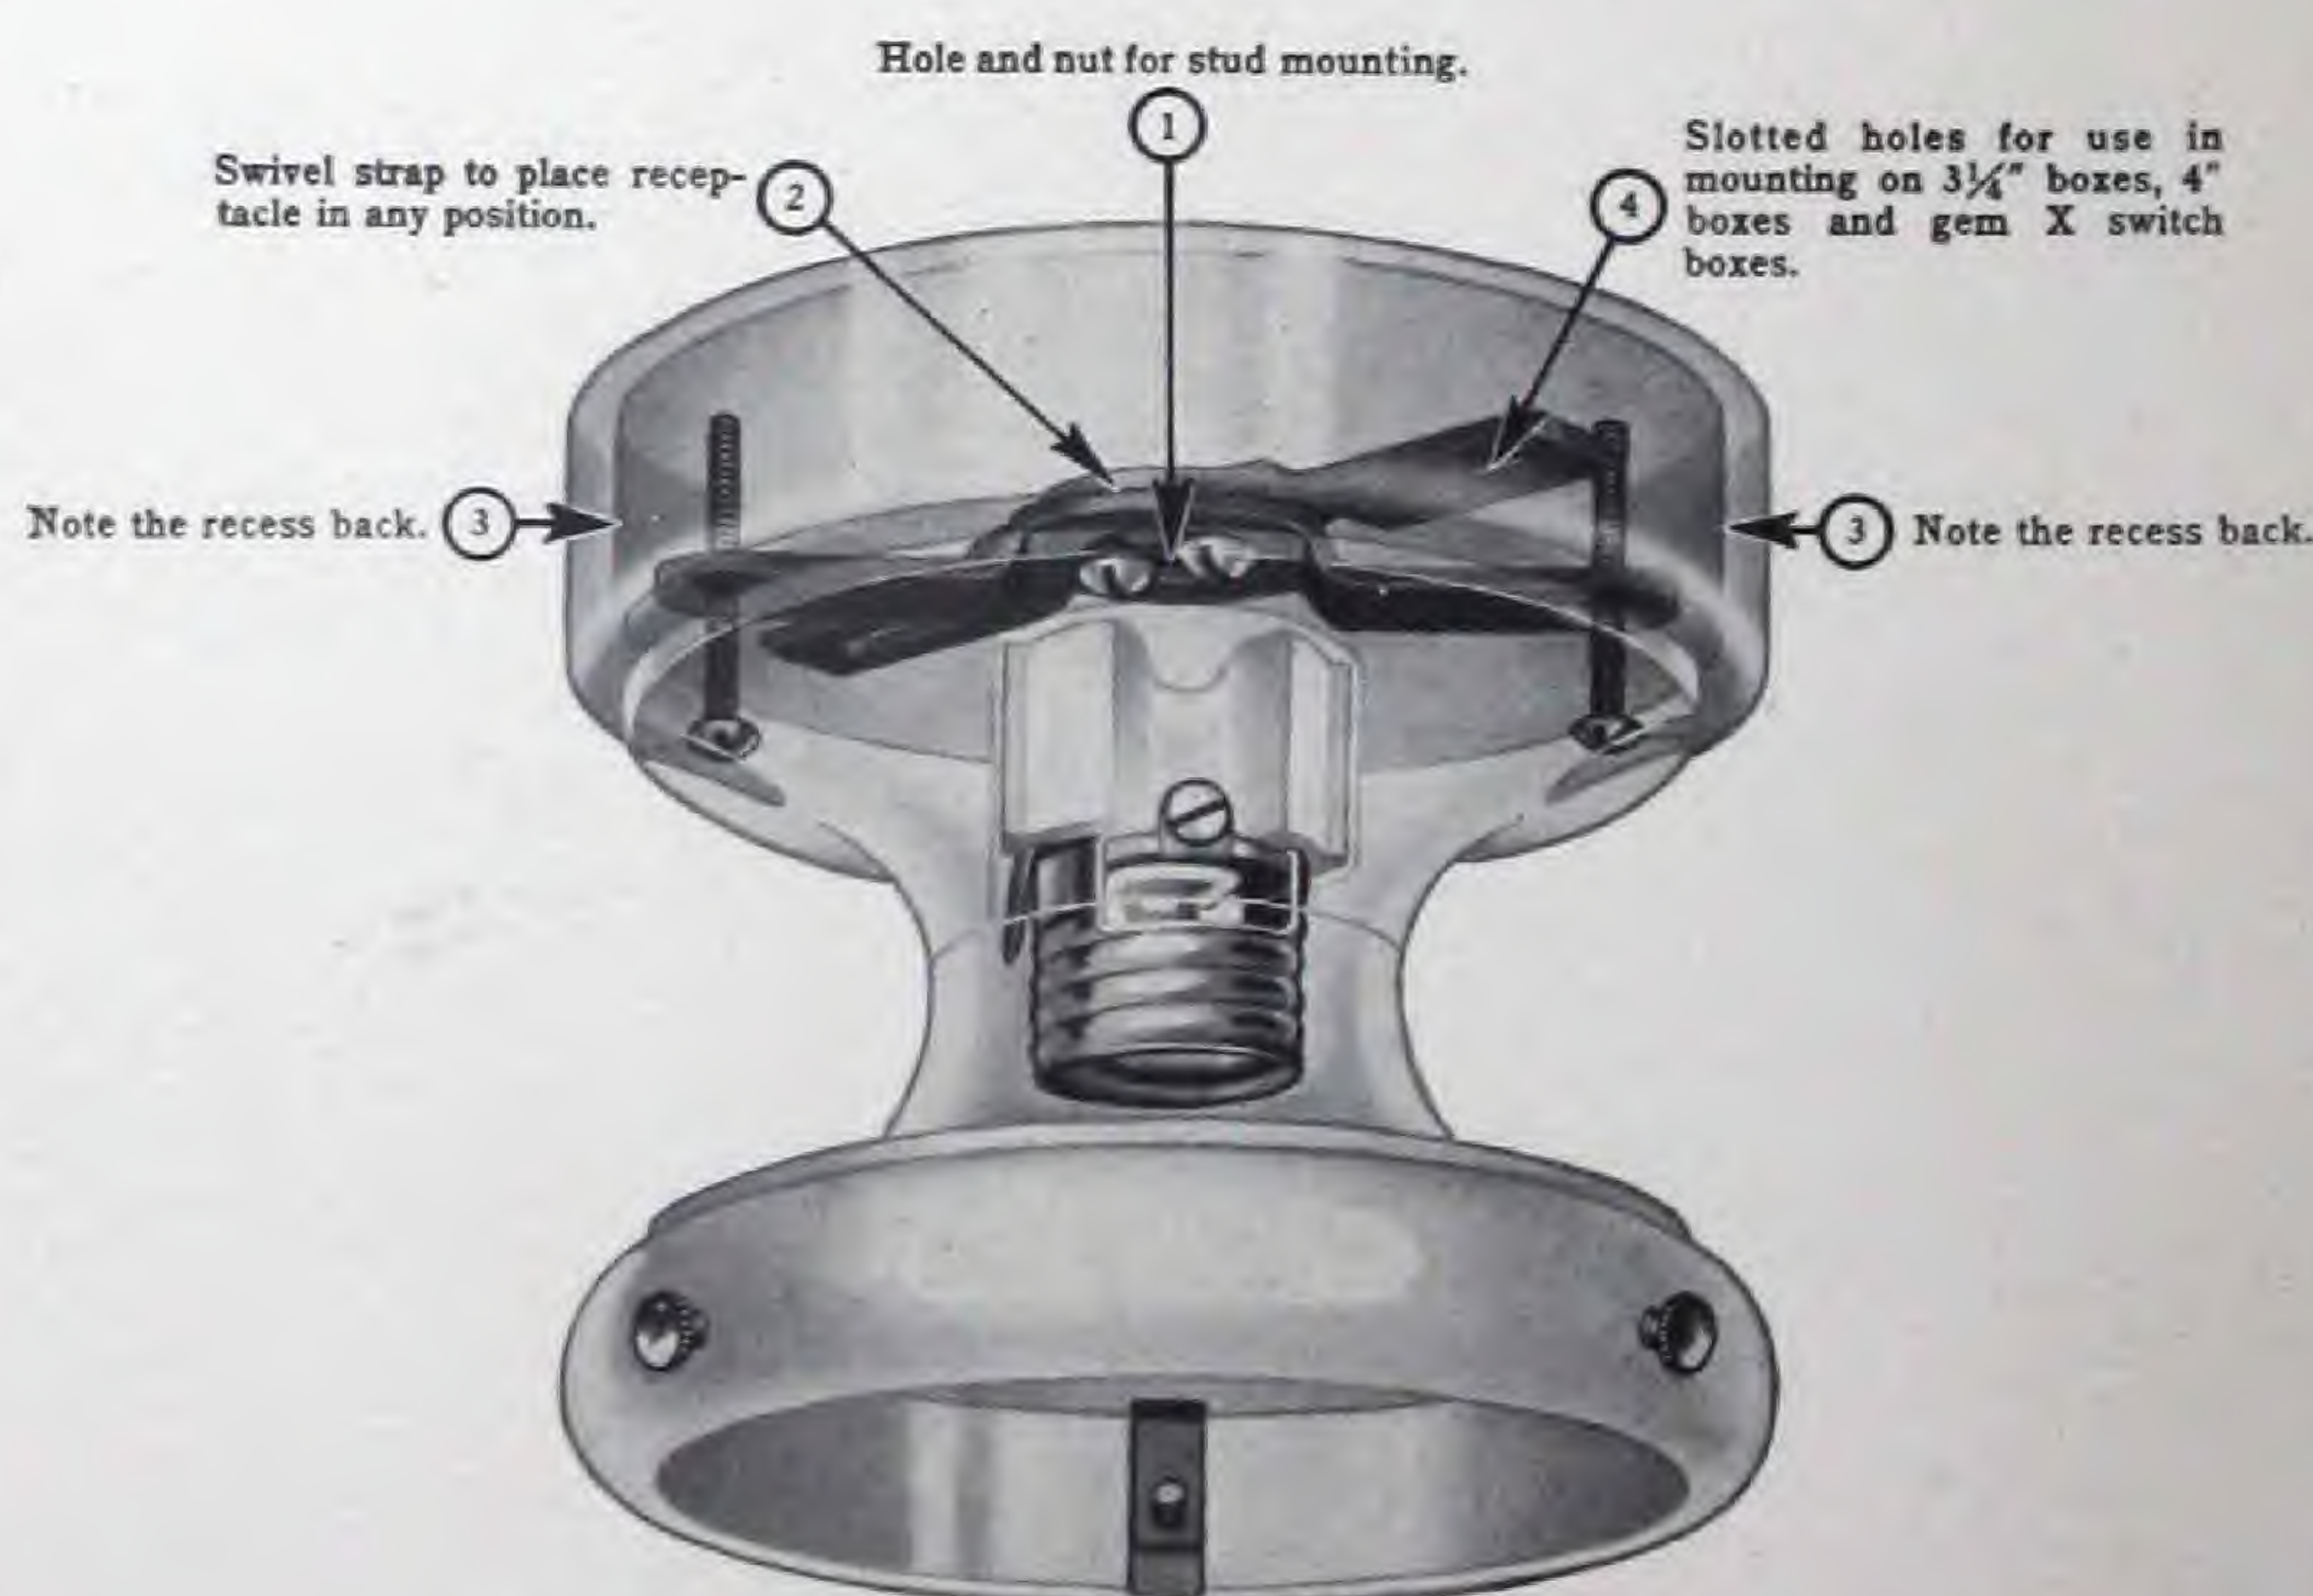

There are over 4,000 ALABAX Porcelain Lighting Fixtures in the Federal Housing project in Atlanta, Georgia, known as the University Project.

The list of satisfied users of ALABAX Porcelain Lighting Fixtures is far too long to be completely listed here—the above brief references will give you an idea of their wide acceptance.

## Swivel Strap.

Wherever necessary ALABAX side-wall fixtures are supplied with swivel straps, thereby permitting perfect positioning of the fixture.

**M**ANY ALABAX fixtures are supplied with glass as a part of the catalog number. When so stated, the glass is included in the catalog number price. Other types of glassware are supplied upon order. When desiring glass with the fixture, the order should state both the catalog number of the fixtures and the catalog number of the glass. Glass is supplied in white only.

The glass we supply has the feature of giving a properly diffused light and at the same time, affording perfect illuminating efficiency. It is a single ply glass of fine quality.
